JEERAWUD JONGJIT

Senior Software Engineer

Machine Control • C#/.NET • PLC • Smart Manufacturing

CONTACT

Samut Prakan, Thailand

jeerawud@gmail.com | 064-1273597

EDUCATION

B.Eng. in Mechatronics Engineering

Pathumwan Institute of Technology

2015–2018 | GPA 3.48

SKILL

LANGUAGE	Thai (Good), English (Normal) ,
Machine Layer	Sensors, Pneumatics, Robots, Vision, Barcode/QR, RFID
Control Layer	PC,PLC, HMI, Servo, Motion Control, EtherCAT, Digital I/O, Modbus TCP/RTU
Software Layer	C#, .NET, WPF, MVVM, SQL, SQLite, REST API
Factory IT Layer	MES, PQM, CFX+, IoT, Traceability, Production Data

Platforms

Visual Studio, Delta, Mitsubishi, Omron, Keyence, KUKA, ABB, YAMAHA

CERTIFICATIONS & TRAINING

SolidWorks Fundamentals – Metro Systems Corporation, 2018

Industrial Robot Training – ABB Automation Robotics, 2019

Advanced PLC Automation – Mitsubishi Electric Factory Automation, 2020

Automation / Machine Training – Fuji Machine Thailand, 2022

DGS Programming Training – Daichi Jitsugyo Thailand, 2022

PROFESSIONAL SUMMARY

Senior Automation Software Engineer with 7+ years of experience delivering automation and semi-automation systems across Automotive, EV, Electronics, and Data Center manufacturing. Experienced in PLC- and PC-based machine control, C#/.NET industrial applications, production data systems, quality control, and manufacturing-system integration. Contributed to more than 100 machine projects, bridging machine control with MES, PQM, CFX+, IoT platforms, APIs, and factory databases.

DELTA ELECTRONICS (THAILAND) PCL

Software Engineer R&D – Automation/ Innovation | 2023-Present

- Design and develop PC-based and PLC-based automation machines for advanced manufacturing.
- Build industrial machine-control software using C# , NET, WPF, SQL,and industrial communication protocols.
- Integrate servo motion control, Ethernet, machine vision
- Connect machines with MES, POM, CFX+, IoT, REST APIs, and manufacturing databases.
- Develop traceability, quality control, production monitoring, operator management, and production-data systems.
- Support system architecture, commissioning, troubleshooting.

AMPAS INDUSTRIES CO., LTD.

Automation Software Engineer | 2018–2023

- Designed and developed automation and semi-automation equipment for Automotive.
- Developed PLC, HMI, and PC-based control systems.
- Integrated robots, servo systems, sensors, scanners, and production equipment.
- Developed Windows applications for machine control, production data management, and quality monitoring.
- Supported installation, debugging, commissioning, and production support.
